

LUCAS EMANOEL

FULLSTACK DEVELOPER

I've been a game developer since 2018. Currently, I focus on building modern web applications with an emphasis on elegant interfaces, high performance, and industry best practices.

My specialties include **React**, **Next.js**, **TypeScript**, and **Node.js**.

| EXPERIENCES

▪ Tucupy Tecnologia, as an web developer (2024 – 2025)

I worked as a web developer, creating modern and responsive interfaces for web and mobile, and implementing backend solutions according to project requirements.

Some projects worked on Tucupy Tecnologia:

- Clube do Remo Member and Supporter CMS Website

Management and sales for members and supporters of Clube do Remo (football team).

- Meia Maratona da Amazônia website and backend

Website that promotes the Amazon Half Marathon in Belém, Brazil. It provides race details, registration options, and cultural experiences for runners of all levels.

- Website Global Discounting

Digital financial platform that offers companies innovative solutions to unlock cash flow and efficiently manage licensing contracts.

▪ TICKZI, as an frontend developer (fev. 2025 – set. 2025)

Brazilian ticketing platform that allows users to purchase, transfer, and manage event tickets. I worked as a front-end developer, creating, integrating, and maintaining new pages and features on the company's website, CMS, and mobile app.
